

Suction system VAC 50

FOR INTIMUS PACMASTER

The compact and variable dust extraction unit is suitable for the Intimus PacMaster. Castors make it mobile and flexible to use. The bin can be emptied by tilting or direct suction into the filter bag. Washable PET fleece filter elements ensure low operating costs. Easily connected to the Intimus PacMaster with the connection kit (#303920).

- Low working noise of 57 db(A)
- 1500 Watt maximum power
- Bin volume: 70 l
- Weight: 25 kg
- Voltage: 230 V
- 7.5 m connection cable
- Filter bag included
