

# intimus OmniShred 85

## PROFESSIONAL, MULTIFUNCTIONAL SHREDDER WITH SMART FEEDING OPTIONS

Up to 10 users

P-4 | Paper and Multimedia shredder with sheet capacity of 30 sheets and bin volume of 68 litres

### Shredding material:

- Paper with staples and paper clips
- CD / DVD / Blu-ray
- Plastic card
- Crumpled paper
- Cardboard
- Foil
- Floppy disk
- Fob key
- Passport
- Medical material (e.g. syringes, pill bottles, blister packages)
- USB stick

The **intimus OmniShred range** is a powerful all-in-one shredding solution for a wide variety of materials, making it essential for both home and office use. Whether you need to shred crumpled documents, credit cards, CDs, or non-traditional items like tablet vials, syringes, or USB sticks, these shredders are built for the task. With versatile feed options and advanced features, OmniShred offers unmatched flexibility for diverse shredding needs.

A standout feature is the user-friendly design with multiple feed slots. The front slot handles up to 30 sheets of paper and can also shred CDs or credit cards—ideal for securely disposing of confidential information. The top feed is designed for bulkier materials such as crumpled paper and disks, processing 3–4 items at once for mixed shredding jobs.

The **high-quality sliding door** further enhances usability and safety. It simplifies the feeding process, protects users from debris, and allows a clear view of the shredding in progress—improving both safety and user experience.

The OmniShred line includes two models with different collection bin sizes. The **OmniShred 85** comes with a 68-liter bin, ideal for small to medium tasks, while the **OmniShred 115** features a larger 115-liter bin for higher-volume environments. The larger bin means longer run times and less frequent emptying, making it perfect for busy offices.

Both models are engineered for high-performance shredding with durable motors and cutting mechanisms for long-lasting efficiency. Whether shredding paper or digital media, OmniShred ensures safe, reliable destruction of sensitive materials.

OmniShred is also built with security in mind. It provides a trusted solution for the complete destruction of confidential data across various formats. Its ability to handle multiple material types in one device makes it a valuable asset for individuals and businesses focused on security and efficiency.

In short, **intimus OmniShred** delivers a secure, versatile, and efficient shredding solution. With flexible feed options, strong security features, and large-capacity bins, it's ideal for any environment—offering both performance and peace of mind.

## KEY FEATURES

- This powerful machine, equipped with a strong gear system, can effectively destroy a variety of materials such as CDs, plastic cards, cardboard, foils, floppy disks, fob keys, passports, pill bottles, syringes, blister packages, and USB sticks.
- Boasting a throughput of up to 948 sheets per minute, it ensures rapid and effective document handling.
- Equipped with a powerful 1100 W motor, ensuring consistent, efficient shredding performance.
- Enhanced mobility facilitated by castors for added convenience, complemented by a sturdy wooden cabinet base and a metal top cover.
- Equipped with a spacious and easily removable 68-litre cardboard container for hassle-free disposal.
- Featuring intuitive i-control designed to streamline shredding tasks.
- Enabling effortless document shredding with automatic start/stop function, auto reverse, anti-paper jam technology, bin full sensor, overheat protection and automatic oiler.
- Developed and manufactured in Germany, our product ensures exceptional durability and reliability.
- The 3,6 x 43 mm particles meet security level P-4 according to DIN 66399 standards, ensuring a high level of confidentiality for shredded materials
- Front Feeding Slot: Measures 305 mm wide, ideal for feeding paper stacks of up to 30 sheets, as well as single CDs and credit cards.
- Top Feeding Area: Sized at 250 x 130 mm, this entry point is designed for shredding crumpled paper, CDs, floppy disks, and similar bulky items, with a capacity for 3-4 items at a time

# SPECIFICATIONS

Area of application	Large office
Feed type	Manual
Cutting size paper (mm x mm)	3,6 x 43
Cutting type paper	Cross cut
Security level ISO/IEC 21964 (DIN 66399)	P-4 / O-3 / T-4 <sup>1</sup> / F-1 / E-3 <sup>3</sup>
Shredding material	Paper with staples and paper clips, CD / DVD / Blu-ray, Plastic card, Crumpled paper, Cardboard, Foil, Floppy disk, Fob key, Passport, Medical material (e.g. syringes, pill bottles, blister packages), USB stick
Waste disposal solution	Removable cardboard container
Intake width (mm)	305
Intake width media (mm)	250 x 130
Possible paper formats (DIN)	A3
Sheet capacity (80g/m <sup>2</sup> )	28 - 30
Throughput	up to 948 sheets/min
Cutting speed (80g/m <sup>2</sup> ) mm/s	160
Bin volume (l)	68
Continuous Running	yes
Noise level (idle operation) dB(A)	63
Nominal motor power (W)	1.100
Power supply (V / Hz)	230 / 50
Other voltages available	yes
Product dimensions W x D x H (cm)	66 x 55 x 81
Product weight (kg)	90
Control operation	i-control
Visual status indication for ...	Ready, Material jam, Door open, Motor overload, Bin full, Oil needed
Automatic start/stop	yes
Auto reverse	yes
Automatic switch-off	yes
Automatic switch-off after x min	5
Material jam protection	yes
Overheat protection	yes
Safety features	Safety glass sliding door
Bin full sensor	yes
Automatic oiler	yes
Castors	yes
Material machine housing	Wood
Made in Germany	yes
Certificates / Listings	CE, UKCA

<sup>1</sup> Only floppy disks / ID cards.

<sup>3</sup> Only plastic cards with electronic chip.
