## GIVE YOUR OLD CARDBOARDS A SECOND LIFE

### Industrial

The intimus PacMaster S packaging material shredder allows businesses to recycle their cardboard packaging in a unique way.

### Shredding material:

- Cardboard

Any organisation that sends or receives parcels is likely to be inundated with corrugated boxes. This packaging material is convenient and strong - but what happens when it reaches the end of its useful life? The packaging shredders from intimus provide a unique form of corrugated recycling, turning used corrugated boxes into valuable cushioning and packaging fillers. The resulting fillers provide reliable protection during shipping - even for fragile and heavy goods. These handy shredders will quickly pay for themselves in any organisation that regularly receives and sends packages.
